

About SASTech Journal

SASTech is a comprehensive multidisciplinary technical journal with its inception in 2002. It is a double-blind peer-reviewed half-yearly journal published by **Ramaiah University of Applied Sciences, Bengaluru**. The research themes of the journal encompass Engineering, Mathematical and Physical Sciences, and Industrial Design focusing on applied research and product innovation. The Editorial Board of SASTech comprises academicians, researchers and industry professionals from India and abroad. SASTech is an open access journal and publication of accepted papers does not involve any processing or publication fees

Aim & Scope

The aim of the journal is to provide a platform for students, research scholars, academicians and researchers to publish their innovative research ideas as well as original research findings. The SASTech journal encourages analytical formulations/solutions, simulation, experimental investigations and validation in the areas of Engineering, Mathematical and Physical Sciences, and Industrial Design. SASTech journal encourages publication of research findings from allied fields of Engineering and Science emanating multi-disciplinary research. SASTech journal is committed to fair, fast and transparent review process.

Editorial Board

- Prof. Govind R. Kadambi (Editor in Chief)
- Dr. Nayana N. Patil
- Dr. S. Srikari
- Dr. A. S. Deepak
- Dr. S. Malathi
- Dr. H. M. Rajashekara Swamy
- Dr. Harshad R Parate
- Mr. Akshayakumar V. Hanagodimath

Publication

SASTech is published twice in a year: January and August.

EDITORIAL

Prof. Govind R. Kadambi

Editor-in-Chief, SASTech Journal

“Inspiring Innovation, Applied Brilliance and Thinking”

I congratulate and thank all the authors for contributing Papers for the SASTech Journal. Research is a unique juncture of the recent past and the very near future ahead. It is a transition from a robustly structured and well scheduled academic ambience to an environment featured with fast changing and rapidly evolving nature of Professional future career.

Well addressed and timely parting advice through an Inspiring conversational tone and reminder of promising Gateway of abundant opportunities shall surely pave way for an effective and seamless transition. As a result, researchers can look forward to the future with a resounding sense of confidence and preparedness. Research is all about refreshing of these attributes and encouragement.

Research is a gratifying result of Inspiration & Perspiration, Patience & Perseverance, Aspiration & Action, Approach & Aptitude, Self-discipline & Sincerity, Devotion & Dedication as well as unwavering desire and determination tested over time. Knowledge is a very unique entity because of its vastness, limitless and unrestrictive boundary. Seldom, it is amenable for quantitative measurement. Therefore, it is reasonable to presume that thrust and thrive for knowledge imbibed as a part of initiation but not at all an end by itself.

Despite the Pandemonium caused by the Pandemic, the Editorial Team has tried all the avenues and resources at its disposal to ensure that the research papers as good as it can be, under the prevalent extraordinary scenario.

CONTENTS

1. A Review Paper on Assessment of Conflict Areas Using VISSIM and Surrogate Safety Assessment Model (SSAM) 01
2. A Survey on Existing Trends in Integration of Block chain Technology into Internet of Things 05
3. Development of a Photonic Non-Invasive Diabetic Detection System using Skin Temperature 13
